# Caution

The lightning flash with arrowhead symbol, within an equilateral triangle is intended to alert the user to the presence of un-insulated "dangerous voltage" within the products enclosure that may be of sufficient magnitude to constitute a risk of electric shock to the persons.

The exclamation point within an equilateral triangle is intend to alert the user to the presence of important operating and maintenance (servicing) instructions in the literature accompanying the appliance.

## **Correct disposal of this Product**

Waste Electrical & Electronic Equipment (WEEE)

Your product is designed and manufactured with high quality materials and components which can be recycled and reused.

This symbol means that electrical and electronic equipment, at their end-of-life, should be disposed of separately from your household waste.

Please dispose of this equipment at your local community waste collection/recycling centre.

In the European Union there are separate collection systems for used electrical and electronic products. Please help us to conserve the environment we live in!

# Important Safety Precautions

- 1) Read these instructions.
- 2) Keep these instructions.
- 3) Heed all warnings.
- 4) Follow all instructions.
- 5) Do not use this apparatus near water.
- 6) Clean only with dry cloth.
- 7) Do not block any ventilation openings. Install in accordance with the manufacturer's instructions.
- 8) Do not install near any heat sources such as radiators, heat registers, stoves, or other apparatus (including amplifiers) that produce heat.
- 9) Do not defeat the safety purpose of the polarized or grounding-type plug. A polarized plug has two blades with one wider than the other. A grounding type plug has two blades and a third grounding prong. The wide blade or the third prong are provided for your safety, If the provided plug does not fit into your outlet, consult an electrician for replacement of the obsolete outlet.
- 10) Protect the power cord from being walked on or pinched particularly at Plugs, convenience receptacles, and the point where they exit from the apparatus.
- 11) Only use attachments /accessories specified by the manufacturer.
- 12) Use only with the cart, stand, tripod, bracket, or table specified by the manufacturer, or sold with the apparatus. When a cart is used caution when moving the cart/apparatus combination to avoid injury tip-over.

- 13) Unplug this apparatus during lightning storms or when unused for long periods of time.

## Caution:

- 14) To reduce the risk of fire or electric shock, do not expose this apparatus to rain or moisture.
- 15) The apparatus shall be disconnected from the mains by placing the power/standby switch in the standby position and unplugging the power cord of the apparatus from the AC mains receptacle.
- 16) The socket-out shall be installed near the equipment and shall be easily accessible.
- 17) This product should never be placed in a built-in installation such as a bookcase or rack unless proper ventilation is provided or the manufacture's instructions have been adhered to.
- 18) The apparatus shall not be exposed to dripping or splashing and that no objects filled with liquid, such as vases, shall be placed on the apparatus.
- 19) Do not place any sources of danger on the apparatus (e.g. liquid filled objects, lighted candles).
- 20) Wall or Ceiling Mounting - The appliance should be mounted to a wall or ceiling only as recommended by the manufacturer.

These servicing instructions are for use by qualified service personnel only. To reduce the risk of electric shock do not perform any servicing other than that contained in the operating instructions. unless you are qualified to do so.

# Desktop TV Bracket Installation & Assembly

- 1 First put the TV on the table smoothly and put some soft **cloth** on the table to avoid scratching the screen.
- 2 Use the screw driver to take off the 6pcs screws which are fixed on the bottom stand (the direction of the arrow, refer to the figure 1). And take out the bottom stand (please keep the screws and bottom stand carefully)

figure 1

Figure2

3. Mounting steps ( See below figures 1 to 4 for details) :

Step 1: Decide whether or not to use padding behind the wall mount brackets.

Step 2: Locate and fix the wall mount brackets with 8 studs into the wooden part of the plasterboard wall, Details see Figure2.

Step 3: Be sure that the wall mount brackets are level with each other.

Step 4: Hang the unit on the secured wall mount brackets.

To ensure a reliable and sturdy installation, please consult a professional installer before mounting the unit to the wall.

Moreover, the spacers can be used in combination to adjust unit' s distance from the wall in order to match the mounted Flat-Panel TV. When using the 1/4", 1/2", 3/4", 1" padding, longer screws must be purchased.

Figure3

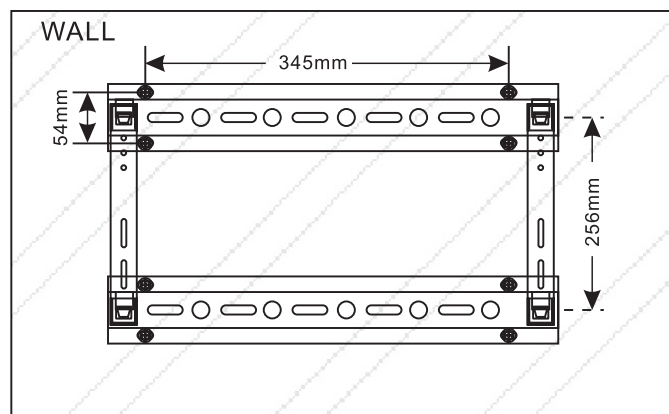

Figure4

Noted:

- 1.The desktop TV bracket is not include
2. We highly recommend using a qualified technician
3. This products can be **mounted** on the plasterboard wall or other wall more better.

# Side panel diagram

1. **⏻**: Turn on/off POWER.
2. **SOURCE**: Source select
3. **MENU**: Into or exit from menu  
(Use CH+/- button select item,  
VOL+/- button adjust item)
4. **CH+/-**: Select channel
5. **VOL+/-**: Adjust Volume
6. **VGA Input**: PC analog signal input
7. **YPbPr**: Color difference  
components input and relevant  
video input
8. **S-VIDEO**: Color and brightness  
difference components input.
9. **AV Output**
10. **VGA/AUDIO**: VGA audio input.
11. **EARPHONE** Output (3.5mm)
12. **ANT 75 ohm**: Connect the antenna to  
the antenna input.
13. **HDMI1 Input**: Digital signal input from  
HDMI video connector
- 14/15. **VIDEO/R/L1/2**: external AV  
signal input and relevant right/left  
sound channel.
16. **HDMI2 Input**

# Remote Controller

1. **POWER** : Sets your TV to power on or standby mode.
2. **MUTE** : Press to mute the sound. Press again or press VOL+ to unmute.
3. **0--9** Press 0~9 to select a TV channel directly while watching TV. The channel will change after 2 seconds. Applicable for entering page number in teletext mode and so on.
4. **↺**: Return to the previously viewed program.
5. **CH +/-** : Press to scan through or to select a channel.
6. **V +/-**: Press to increase / decrease the sound level.
7. **- / - -** Press this button to enter a program number for different digit. eg. - / - - / - - -
8. **DISPLAY** : Press to display the source and channel's info.
9. **(▲/▼/◀/▶/ENTER)**  
Allows you to navigate the on-screen menus and adjust the system settings to your preference.
10. **SOURCE**: Press to list the source items.
11. **SLEEP**: Select amount of time before TV turn itself off automatically.
12. **EXIT**: Exits from the menu or sub-menu and menus and adjust the system settings to your preference.
13. **MENU** : Allows you to navigate the on-screen menus.
14. **P.MODE**: : Press to cycle through the different picture settings
15. **PIP/POP**: (Picture in picture)  
NO/OFF: Press to On / Off the PIP function .  
SOURCE: Press to cycle the PIP source  
SWAP: PIP/main picture position swap
16. **S.MODE**: Press to cycle through the different sound settings.
17. **MTS**: : Press to select the MTS mode.(for example, Nicam , BTSC, MONO, STEREO .eg )
18. **SCALE**: Press to switch the size of screen.
19. **STILL**: image still.

## Battery Installation:

Remove the battery compartment lid on the rear of the remote control. Put two AAA batteries inside the battery compartment with their + and - ends aligned as indicated. Do not mix old and new batteries or different types of batteries. Replace the battery compartment lid. Slide the lid until you hear it click into place.

## Using the Remote Control:

Unless stated otherwise, the remote control can operate all the features of the TV. Always point the remote control directly at the remote sensor in the front of the TV.

**Universal Remote Control code: 007F**

# HELP

No Power	Check the AC cord of TV is plus in or not. If still no power, please Pull out the plug and replug in after 60 seconds. And open the TV again.
Signal receive not properly	To cause double image or phantom if there has high building or high mountain round -TV. You can adjust image effect by manually operation: consult instruction of vernier regulation or change the direction of external antenna. If you use the indoor antenna . under certain circumstance, receive will be more difficult .So you can change the direction of the antenna to adjust the image effect . If can't change image receiving effect either , you have to use external antenna.
No picture	Check the antenna at the back of TV is connected properly or not. Try to select other channels and check whether the TV problem itself or not.
Video is ok ,but without audio	Increase the volume. Check the TV is in mute mode or not , and please press the mute button to make sound resume.
Audio is ok, but color error or no picture.	Increase contrast and brightness.
snow statics picture and noise	Check the antenna at the back of TV is connected or not .
Level broken line	Maybe has electrical appliance interfere, such as hair drier, vacuum cleaner and so on, please turn off these kinds of electrical appliance.
Dual-Image or "simulacrum" The TV no response with the Remote.	Perhaps the location for the antenna is not good. Use the tall beamed antenna can be improved quality of the display image. Operate the remote direct to the remote sensor on the TV. If still no response for the TV, please check if the plastic bag on the remote take or not. And check if the location for the battery is correct. Change the new battery. The TV will shift to the STAND BY if no response from the remote in the few minutes.
NO Video In. (PC Mode)	Please check if the display cable connect to the VGA correcte . Please check if there has the bend on the display cable.
Vertical twinkling (PC Mode)	Enter the main menu, Use the clock regulator for the Video display noise to eliminate the vertical line.
horizontal ripping (PC Mode)	Adjust the Audio sound horizontal in the main menu to clear the horizontal ripping line.
The screen is too bright or too dark (PC Mode)	Adjust the contrast ratio or brightness in the main menu.
PC Function no response	Check the computer setting in the state of compatible display resolution
Ripping line in RCA connecting	Please use good quality connecting cable.
Problem still exist	Unplug the power cable and wait for 30 seconds, then connect. If there is some problem with our TV, do not repair it by yourself, please contact with the customer service center.

Note: There will be complete picture and the brightness will come down if the TV is in the static picture for too long time, So please do not keep the TV in a state of same Menu or same picture that has much difference in brightness and contrast ratio for too long time.
